Conclusion

- > Netflix has built a large and rapidly growing content library, especially after 2015.
- > The platform is dominated by movies, while TV shows still play an important role.
- > International movies and Dramas are the most popular genres.
- > Most content is targeted toward adult audiences.
- > The United States leads content production, but Netflix is expanding globally.
- > Overall, Netflix has transformed into a global, content-rich platform focused on diverse and mature storytelling.
